1 The COZ: recover from trips

T. Kurča, 12.8.1998

1. **If COZ channel trips** then

   - wait at least 5 minutes
     (don't hurry - it has tripped only 1 channel, the rest of the chamber is on!)
   - click **"ON"** - to ramp up the tripped channel

2. **If the same channel trips after few minutes again**

   - wait approximately 25 minutes
   - click **"ON"** - to ramp up the tripped channel

3. **If the same channel trips again (3rd times)**

   - don't try to ramp it up
   - watch more closely the background rates and note them (Veto Wall counters, CIZ currents)
   - call the expert : Telephone - DESY 31-35
     private 837439
     Cityphone - 4688334

4. **If all (or allmost all) channels are tripping, e.g. :**
   0-15
   20-35
   40-55
   60-75
   80-95
   100-115

   - switch **"OFF"** the chamber
   - after 15 minutes put it into **"STANDBY"**
   - inform the expert
